EDUCATION

Imperial College London **London, UK**

MSc in Statistics (Statistical Finance) 09/2025 – 06/2026

- Core modules: Computational Statistics, Probability Theory, Advanced Simulation Methods, Statistical Finance
- Societies & Activities: DocSoc Society, QubeResearch Inter-University Challenge, Imperial Algothon 2026
- *Research*: Heterogeneous Tail Dynamics in Dynamic Quantile Models (Supervisor: Professor A. Luati)

Bocconi University **Milan, Italy**

BS in Economics, Management, and Computer Science 09/2022 – 07/2025

- Core Modules**:** Advanced Statistics, Computer Programming, Econometrics, Financial Trading Strategies
  Graduated with **110/110 cum Laude**
- Dissertation: Bayesian Nonparametric Methods for modelling Implied Volatility surface in Option Pricing
- Visiting student to: ***Rotman Commerce University of Toronto*** (01/2025 – 06/2025) – GPA 4.0/4.0

WORK EXPERIENCE

UBS **Zurich, Switzerland**

Trading & Sales summer intern 06/2025 – 08/2025

- Completed two rotations (WM FX Sales, Cash Equity Sales), gaining exposure to both buy- and sell-side markets, trading flows, and client-facing sales processes.
- Streamlined daily desk operations by automating trade preparation and client material generation in VBA, improving process efficiency by about 20%.
- Final project: '*FX Hedged Carry Trade*' — designed and analyzed a quantitative strategy incorporating funding costs, hedging mechanics, and practical trading constraints.

Finlabo SIM **Milan, Italy**

Financial Research Summer Intern 06/2024 – 07/2024

- Examined flow-return dynamics for high-volume ETFs (VOO, SPY, EQQQ) using lead-lag regressions on differenced series, testing whether flow shocks predicted subsequent returns.
- Produced comprehensive 40+ page report documenting empirical findings with 15+ Excel and Python analyses, analyzing market-wide movements and autocorrelation.

Bocconi University **Milan, Italy**

Research Assistant 08/2024 – 11/2024

- Assisted the Department of Finance at Bocconi University, focusing the research on Neural Network
- Built Python, STATA and Excel analyses, contributing to the analytical research for research on *Twitter role in funding companies* and *Neural Network analysis for entertainment success*

COMPETITIONS

Prosperity IV 2026 – IMC Trading **Remote**

Global Algorithmic Trading Challenge 04/2026 – in progress

- Designed market-making strategy, successfully passing 3 selection (top 5%) out of 15,000+ global participants, achieving $200k cumulative PnL.

Dive into Quant Strategies – Goldman Sachs **London, UK**

Spring Insights into Quant Strategy & Competition 04/2026

- Ranked top 3 in an *algorithmic ETF arbitrage challenge*, implementing quantitative strategies to exploit pricing inefficiencies across correlated instruments.

ETH Zürich x UBS Trading Competition **Zurich, Switzerland**

1st place in Market Making 10/2024

- Excelled in high-frequency decision-making and real-time trade execution, optimizing bid-ask spreads, managing order flow, and hedging inventory risk to maximize profitability while maintaining market liquidity under simulated market conditions.

VOLUNTEERING EXPERIENCE

Monte Pacini Social Inclusivity Farm **Fermo, Italy**

Special needs children educator 05/2022 – 08/2022

- Involved in the entertainment of children and organized activities resulting in a social inclusion project for children.

SKILLS, LANGUAGES & INTERESTS

Languages: **Italian** (Native), **English** (Fluent), **Spanish** (Basic), **French** (Basic).

Technical Skills: MS Excel (Advanced), **Python** (Proficient), **R** (Intermediate), SQL (Basic), VBA (Basic), Git, LaTex, Bloomberg Terminal, Reuters Terminal.
